

# ICDSC 08 Workshops –Call for Proposals

## 2nd ACM/IEEE International Conference on Distributed Smart Cameras(ICDSC-08)

September 7–11, 2008  
Stanford University, USA

<http://www.ICDSC.org>

Proposals are invited for high-quality workshops on a variety of timely distributed smart cameras topics. Workshops will be held on 11 September 2008.

The goal of the workshops is to provide an informal half-day forum for researchers to discuss important research issues and challenges. Workshops are expected to feature around 6 oral presentations. In exceptional cases full-day workshops could be accepted.

Workshops will be held at the main conference site and attendance to the workshops will be included in the ICDSC08 registration. The conference organisers will provide the seminar room and the basic audiovisual facilities.

The workshop organisers are responsible for coordinating the content of workshop, moderating discussions, and ensuring attendance from the contributors named in the workshop proposal.

### The workshop proposal should contain the following information:

- 1.Name of the workshop
- 2.Scope of the workshop (description of the motivation and the objectives of the workshop: why is the topic of interest? why should there be a discussion? what will be its impact?)
- 3.Format (lecture only, lecture/posters/demos combination, ...)
- 4.Names of any confirmed speakers
- 5.Names of potential invitees
- 6.Expected numbers of submissions
- 7.Draft call for papers of the workshop

Proposals should be emailed as pdf or plain text to the ICDSC08 Workshops Chair, Andrea Cavallaro (**workshop AT icdsc.org**), before 10 March 2008. Acceptance will be notified by 21 March 2008.
